In this case, considering that one side of the embroidery is "arabesques" -- a curling leaf and vine pattern -- and the other side is a simple diamond grid, I think two layers of cloth is a more likely explanation. These patterns have such completely different structure that I can't think of any way that working one on one side of the cloth could produce the other pattern on the other side

And i have a pattern draft of it, but the embroidery pattern is very poor, and i dont know wich collours are used. I surely want to go to see that next time, and take photos of the embroidery. Right at this moment a large packet is on its way to me from China with more than 2 kg. of embroidery silk in more than 450 collours, either next week or the week after its mine, all mine :-)
